

HERMES

STEEL CARABINER

REF: 1075

1

CHARACTERISTIC

HERMES is a carabiner with excellent capacity, symmetrical, it presents unbeatable conditions in terms of its resistance, ductility and hardness, especially for professional, military or rescue work, strategically bathed in zinc sand for greater durability in rough jobs.

2

TECHNICAL INFORMATION

- Minimum breaking strength (axial forcé) (MBS) of 45 kN
- Lateral forcé 16 kN
- Force with gate open 12 kN
- Weight: 245 grams
- Length 110 mm
- Width: 69mm
- Double insurance
- Door opening 20 mm
- Rule ANSI Z 359.12 CSA C259.12
- Reference 1075
- One-year warranty (factory defect)
- Made of steel
