

DIELECTRONIC CLIMBING PRETAL

SMALL SINGLE POLLEY
IN ALUMINUM

REF: 803

1

CHARACTERISTIC

Recommended for use in work where pole climbing is required and there is an electrical risk to not have metal rivets. It is recommended to store inside a bag in a dry place away from sunlight. Review at the beginning of the activity the rope and the band, if they present any modification (broken or imperfect) replace them immediately. They should be used with a certified endorsement.

2
